Tests must be scheduled a minimum of 48 hours in advance. Tests shall be scheduled when the contractor can assure the required work has been completed. Tests scheduled before the job is complete will be charged a re-inspection fee. Tests must begin within 30 minutes after the arrival of the Fire Inspector. Tests must begin within 30 minutes after the arrival of the Fire Inspector.

Contractors that start a job without first obtaining and receiving the appropriate review and permit will be charged a fee that is triple the fees identified within this section, and a stop-work will be issued.

Permits will be issued only after the plans have been submitted and receive a satisfactory review.
