**MINUTES OF THE REGULAR BOARD OF  
BUILDING AND ZONING APPEALS MEETING  
Wednesday April 20, 2016**

**Call to Order**

Chairperson Tarr called the meeting to order at 6:30 p.m.

**Roll Call**

Members Present: Sarah Szejn  
Dave Makes  
Jack Dexter  
Chris Tarr  
Don Fischer

Also Present: Bruce Kaniewski, Village Planner  
Judith Taubert, Deputy Clerk/Treasurer

**Minutes**

Motion made by Szejn/Makes to approve the June 25, 2015 regular meeting minutes as presented. Motion to approve the minutes carried.

**Public Hearing**

A public hearing to consider a variance to Section 100-152 (d)(2)a. of the Village of Mukwonago Municipal Code requested by Karen Braun, Waukesha County Department of Public Works, for the property located at 1009 CTH NN E, known as MUKV1967998 pertaining to the parking lot setback from the north property line opened at 6:31 p.m.

The Village Planner explained the public notice published stated the parking lot setback on the west property line instead of the north property line but the agenda had the correct property line. The Board of Appeals agreed to go ahead with the public hearing.

Karen Braun, Waukesha County Department of Public Works, explained the County will be causing a hardship with the work that they will be doing.

Public hearing closed at 6.36 p.m.

**Consideration**

Motion by Szejn/Makes to grant a 10 ft variance for a portion of the parking lot from the north property line having a setback of zero (0) feet, as opposed to the requirement of a front yard setback of 10 feet for greenspace, except for driveways to and from a public right-of-way; pursuant to Section 100-152 (d)(2)a. of the Village of Mukwonago Municipal Code (Zoning).

Reasons for granting the variance are:

1. Special circumstances apply, 15ft. to the west and 12ft. to east totaling 0.055 acres
2. This variance request does not include the construction or modification of any existing improvements.
3. The applicant did not create the hardship. The government action (eminent domain acquisition of his land) is causing the hardship.

4. This variance will not include any new or increased parking area and will not result in any change in the use of this property. The variance allows for the continued use of the site after the impact of a public right of way acquisition.
5. The variance will not alter the character of neighborhood.
6. It is the minimum that will afford relief.
7. This variance will not expand, move or change the existing parking lot.
8. No one appeared to speak against it.

There were no conditions. Motion carried unanimously upon roll call vote.

### **Public Hearing**

A public hearing to consider variances requested by Matthew Mehring, Anderson Ashton, Inc., for a variance of 10 feet for a parking lot setback of zero (0) feet from the north property line, as opposed to the requirement of an interior yard setback of 10 feet for greenspace; pursuant to Section 100-152 (d)(2)b., a variance of two (2) feet for a portion of the parking lot from the west property line (Rochester Street) having a setback of eight (8) feet, as opposed to the requirement of a street yard setback of 10 feet for greenspace, except for driveways to and from a public right-of-way; pursuant to Section 100-152 (d)(2)a., and a variance of 10 feet for the dumpster enclosure setback of zero (0) feet from the east property line (Jefferson Street), as opposed to the requirement of a street yard setback of 10 feet for greenspace, except for driveways to and from a public right-of-way; pursuant to Section 100-152 (d)(2)a. of the Village of Mukwonago Municipal Code (Zoning), for the property located at 214 S. Rochester St., known as MUKV1976123 opened at 6:37 p.m.

Matthew Mehring, Anderson Ashton, Inc. explained that the maximum amount of parking is the main goal.

Kay Johnson, Kay's Academy of Dance, 204 S. Rochester St. sent an email with approval for no green space between properties.

Public hearing closed at 6.37 p.m.

Motion by Szejn/Dexter to grant a variance of 10 feet for a parking lot setback of zero (0) feet from the north property line, as opposed to the requirement of an interior yard setback of 10 feet for greenspace; pursuant to Section 100-152 (d)(2)b. for the property located at 214 S. Rochester St., known as MUKV1976123. Motion carried unanimously upon a roll call vote.

Reasons for granting the variance are:

1. Special circumstances apply to property. The property currently doesn't conform.

4. Minimum that will afford relief.

## PROCEDURAL CHECKLIST FOR VARIANCE REVIEW

---

This form is designed to be a guide for submitting a complete application for a conditional use.

If your application for a building permit is denied by the Inspection Department, you have the option to apply for a variance. Requesting a variance requires appearing before the Board of Zoning and Building Appeals and explaining why you should not be expected to comply with Village zoning regulations. You will be required to prove practical difficulty or unnecessary hardship. The fee to appear before the board is nonrefundable.

The Board of Zoning and Building Appeals (Board) is a group of five citizens appointed to listen to members of the public who want to appeal the rules of the Municipal Zoning Code (Chapter 100). The Board will receive a packet of information about your appeal in addition to listening to you and your neighbors' comments at a public meeting. Also, the Board may request assistance from other Village officers, departments, commissions, and boards in making its decision.

### Application Submittal Packet Requirements for Village and Applicant Use (Check off List)

- Completed application for building permit (separate application)
- Completed application form including the procedural checklist and justification of requested variance.
- Application fee: \$450
- Agreement for Reimbursable Services (separate application)

### Required site drawings and other information:

- Survey of the property
- Map/picture of the property
- Plan of operation/proposal
- Overview of the adjoining lots (including list of parcel identification numbers for all properties within 300 feet of the subject property)
- Drainage plan
- Floor plan (1/4" Scale)
- Elevations (front and sides)
- Electronic Submittals are required.** Email (or CD ROM) with all plans and submittal materials in Adobe PDF to [planner@villageofmukwonago.com](mailto:planner@villageofmukwonago.com).
- Any additional information as determined by Village staff.

### DO NOT MAIL ANY ADDITIONAL MATERIAL OR INFORMATION DIRECTLY TO OR CALL MEMBERS OF THE BOARD.

Save the additional material and information you have for the Board until the meeting, or you may mail it to staff prior to the meeting. Staff will enter your additional information and material into the public record and forward it to the Board.

After you apply for the variance and before the meeting occurs, notice of your request will be published in two editions of the Mukwonago Chief, and neighboring property owners within 300 feet of your property will receive notice of your appeal.

Also during this time, board members may choose to drive by or visit your property to gather information that may influence their decision regarding your requested variance.

## VARIANCE STANDARDS

---

***Variations are not granted routinely. The application for a variance must clearly show the Board of Building and Zoning Appeals that the three Wisconsin State Statutory Standards that govern granting a variance will be met.***

Unnecessary Hardship: A situation where, in the absence of a variance, an owner can make no feasible use of the property. A variance is not warranted if the physical character of the property allows a landowner to build or develop in compliance with the zoning ordinance.

**The hardship or difficulty must be peculiar to the zoning parcel in question and different from that of other parcels, not which affects all parcel similarly.** Generally, hardships arise because of some unique property limitation of a parcel or because the property was created before the passage of the zoning ordinance and is not economically suitable for a permitted use, or will not accommodate a structure of reasonable design for a permitted use, if all area, yard and setback requirements are observed.

**Loss of profit or pecuniary hardship is not in and of itself grounds for a variance.**

**PETITION FOR VARIANCE**

---

**TO THE ZONING BOARD OF APPEALS**

The petition of Citizens Bank respectfully shows:

1. This petition is made pursuant to the ordinance of the Village of Mukwonago and pertaining to the functions, duties, and powers of the Board of Building and Zoning Appeals.

2. The petitioner is appealing for:

A lot line adjustment and three permanent easements.

---

---

3. Petitioner requests a variation as follows:

Allow a 7.4 foot set back of the existing building to the adjusted property line from 10 feet.

Allow a 66 foot lot width at the setback line for the residential property from 100 feet.

---

4. Petitioner has attached hereto a survey of the premises.  Yes  No

5. The present zoning classification of the described real estate is B-2

6. The names of the owners of said property are as follows:

Citizens Bank

---

7. Petitioner further respectfully represents that to permit the variance aforesaid would not be contrary to the public interest, or in any way be detrimental to the neighborhood or the neighbors; that to refuse to permit such a variance would cause to the petitioner practical difficulty or unnecessary hardship; and that the use of the premises for the purposes herein prayed would do substantial justice, would be in keeping with the spirit of the Village of Mukwonago and the immediate neighborhood.

**ITEMS REQUIRED TO BE SUBMITTED** *(If not applicable, mark N/A)*

- Survey of the property
- Map/picture of the property
- Plan of operation/proposal
- Overview of the adjoining lots (including list of parcel identification numbers for all properties within 300 feet of the subject property)
- Drainage plan
- Floor plan (1/4" Scale)
- Elevations (front and sides)

**APPLICATION FOR VARIANCE (Please fill out ALL of the questions.)**

---

**A. Describe what you are building, the proposed dimensions, and what are the proposed setbacks:**

We need to establish legal easements on both sites. Nothing will change on the current parcels, however the commercial site needs legal easements for use of the current electrical service and the dumpster inclosure located on the residential parcel.

The residential parcel needs an easement through the commercial parcel to access the current residential garage.

---

---

**B. Describe the exceptional or extraordinary circumstances or conditions that apply to your property that do not apply to surrounding properties:**

Both parcels were previously owned by a single owner. When the present commercial building was expanded to accommodate the commercial tenants, the building was allowed to be built over the existing lot line by 7.6 feet. We do not know when the expansion occurred. The requested lot line adjustment would transfer the required property to allow the two parcels to be sold separately. After the lot line adjustment, the residential parcel will still be 15,985 square feet.

---

**C. Describe the hardship (s) that would result if the Variance is not granted:**

The residential home is a solid and affordable structure which has been occupied for many years. If not granted the variance we may be forced to remove the residence, which would also reduce the tax base. It was the previous owner, no longer involved with the parcels, that caused the present situation. Our intent is to keep the parcels intact to be sold separately.

---

---

**D. Describe how the variance would not have adverse affects on surrounding lands:**

All Main Street facing parcels have business zoning. Both parcels have been in their current state for decades. Parcels in this neighborhood were all originally divided as 66 foot lots dating back to 1890. By establishing the proposed easements it would allow legal access for the current use for both properties.
