Summary of Mukwonago Recommendations

Village Center

Adopt a Village Center Vision and Identity

Create a Village Center Master Plan

Create a central "Village Green"

Adopt a Village Center Overlay Zone that allows flexibility in density, mixed use and parking

Develop Village Center Design Guidelines

Develop a Village Center Wayfinding Plan

Target an additional 60-100 new off-street parking spaces in the southern Village Center area (.7 acres for 100 spaces or .4 acres for 60 spaces after deducting current on-street and off-street public parking).

Promote shared parking among businesses

Create more off-street public parking areas

Develop an alley on the west side of STH 83 from Lake Street to Atkinson

STH 83

Remove on-street parking

Provide separate left turn lanes at major intersections

Remove conflicting driveways

Maintain full access to all businesses

Maintain all public street access

Enhance pedestrian crossings

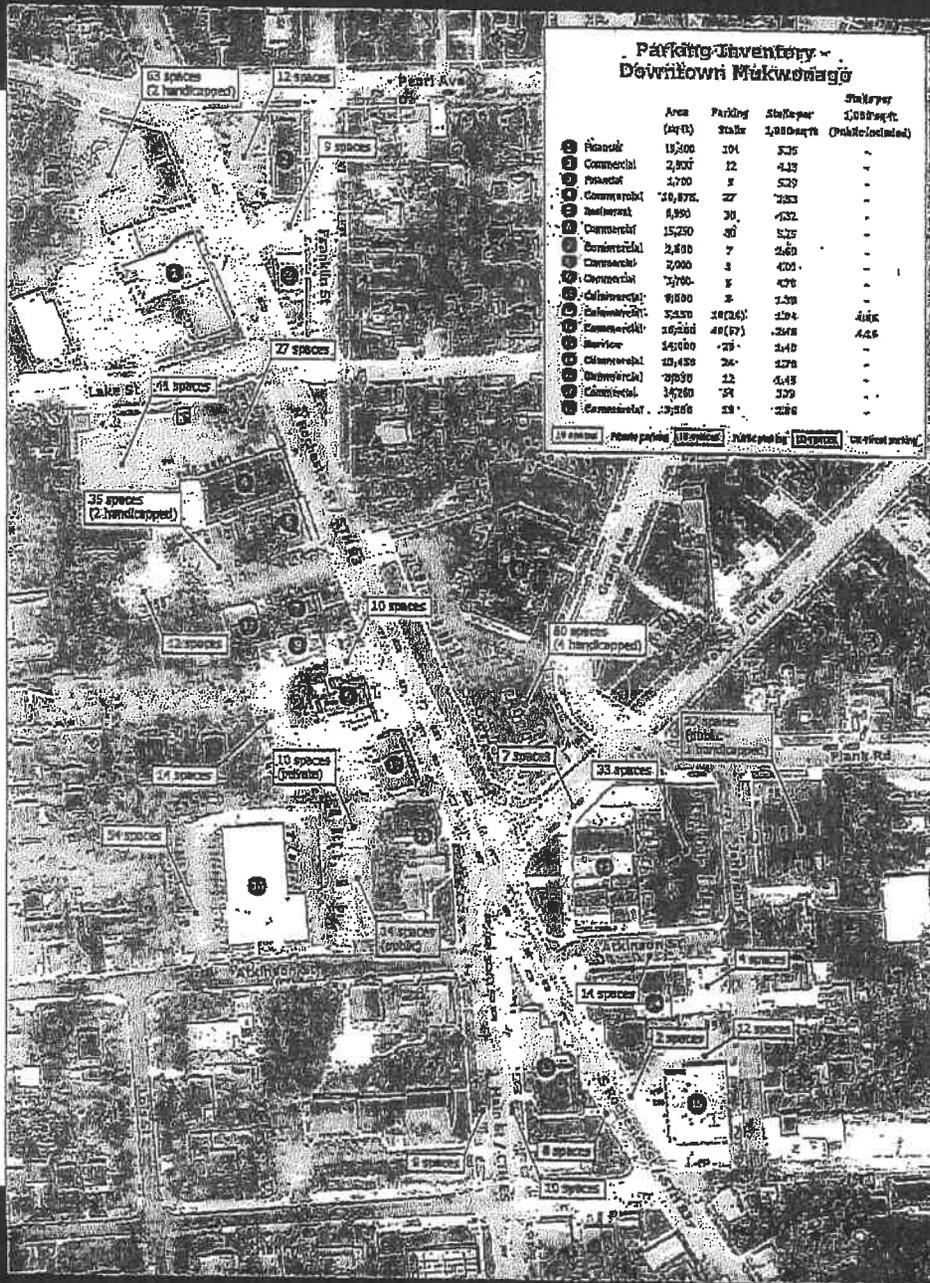

Include on-street bike lanes and link them to the north and south

Incorporate traffic calming measures into the street design

Incorporate streetscape, lighting, and signage into the street design

define
enhance
sustain

STH 83 Study

Parking Inventory

2011-2012

Village of Mukwonago, WI

To: John Lichtenfeld
Subject: Parking space inventory

John -

Here's what I found:

StH 83 - west side ES to Lake -- 10
StH 83 -- east side Lake to LO -- 1

Main St (ES) east side StH 83 to Henry -- 8-9
Main St (ES) west side StH 83 to Henry -- 7

StH 83 - west side ES to Henry -- 7-8
StH 83 -- east side ES to Henry -- 2

27
You said you counted 24 parking spaces. In practically you're probably correct, because I measured if everyone parked as efficiently as possible (which is unrealistic).

Paul
